This product will kill workers and/or winged reproductive forms of the listed termite species present at the time of application and will provide residual control of termites contacting the treated surfaces only as described in the Directions for Use. This product is intended only as a spot treatment. Application of this product will not provide structural protection nor substitute for mechanical alteration, or soil or foundation treatment with registered termiticide products. This product is not to be used as sole protection against termites, as it is not intended for elimination of termite infestations nor for protection against future infestations.
