KEEP OUT OF REACH OF CHILDREN

CAUTION
FIRST AID

IF SWALLOWED:
• Immediately call a poison control center or doctor.
• Do not induce vomiting unless directed to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

IF IN EYES OR MOUTH:
• Wash eyes with water or oil for 15-30 minutes.
• Rinse mouth with water for 15-30 minutes.

IF SKIN OR CLOTHING:
• Take off contaminated clothing and skin immediately with plenty of water for 15-30 minutes.
• Call poison control center or doctor for treatment advice.

IF INHALED:
• Move person to fresh air.
• Call 911 or an ambulance. Then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: • Contains petroleum distillates • Vomiting may cause aspiration pneumonia. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call the International Poison Center at 1-888-740-8712.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not contaminate fishbearing waters. Do not contaminate canals, ponds, streams, or gutter systems. Do not contaminate ground water sources. This product is toxic to fish, birds, and other wildlife. Do not contaminate fish-bearing waters. Do not contaminate canals, ponds, streams, or gutter systems. Do not contaminate ground water sources. This product is toxic to fish, birds, and other wildlife. Do not contaminate fish-bearing waters. Do not contaminate canals, ponds, streams, or gutter systems. Do not contaminate ground water sources. This product is toxic to fish, birds, and other wildlife. Do not contaminate fish-bearing waters. Do not contaminate canals, ponds, streams, or gutter systems. Do not contaminate ground water sources.

PHYSICAL OR CHEMICAL HAZARDS

Combustible. Do not use near heat or open flame. Do not apply this product around electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USE

Do not apply directly to food. Cover or remove all food and food-processing equipment during application. After spraying, wash all food and food-processing equipment, wash all equipment, benches, tables, etc. with an effective cleaning compound, and then rinse with water.

In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use following treatment. Cover exposed food. Do not spray utensils used for food or feed. Remove pets and birds and cover fish aquariums before spraying.

Do not allow children or pets to contact treated surfaces until spray has dried.

Do not apply this product in occupied patient rooms or in any room/area while occupied by patients, the elderly, or infirm.

Do not apply to commercial vehicles while in use.

Do not apply to the food area of any food-handling establishments where livestock feed is present.

CONQUER Residual Insecticides Concentrate can be mixed with an EPA-registered insect growth regulator (IGR) or pyrethrin-containing product in areas where these products are allowed to be sprayed. Please check product-specific label directions before using.

The physical compatibility of CONQUER Residual Insecticides Concentrate with tank mix partners should be tested before use. To determine the physical compatibility of CONQUER Residual Insecticides Concentrate with other products, use a 1 pint jar, add the proportionate amounts of the products and agitate. After thoroughly mixing, allow the mixture to sit for at least 5 minutes. If the mixture remains mixed or can be mixed manually, it is physically compatible. Once compatibility has been proven acceptable, use the same procedure for adding required ingredients to the spray tank. If the combination proves not to be physically compatible, do not mix products in a tank mix. Observe the most restrictive of the labeling limitations and precautions of all products used in mixtures. Labeling Data: Rates: No label dosage rates should be exceeded. This product cannot be mixed with any product containing a label prohibition against such mixing.

INDOOR USE:

GENERAL MIXING AND USE INFORMATION:

Use CONQUER Residual Insecticides Concentrate to control the pests listed on the label on a contact spray.

*When using oil as the diluent, an odorless light petroleum hydrocarbon as defined by CFR Title 21, Sec. 172.884 should be used for all food areas and food-related applications.

APPLICATION ONLY IN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS:

DO NOT TREAT ESTABLISHMENTS WHERE LIVESTOCK FEED IS PRESENT.

A food handling establishment is any place other than a private residence in which food is held, processed, prepared, and/or served.

Food areas of food handling establishments include areas for receiving, storing, processing (dry, cold, frozen, raw), packaging (canning, bottling, wrapping, boxing), preparing (cleaning, slicing, cooking, grilling), edible waste storage, enclosed processing systems (miclfs, dairies, edible oils, syrups), and/or non-food areas of food handling establishments include storage, refrigeration, equipment, office, locker rooms, machine rooms, boiler rooms, garages, waste containers, and storage (paper, glass, metal, or plastic).

Serving areas are places where prepared foods are served, such as dining rooms, but excluding areas where foods are prepared or held before or after being served.

As a Surface Spray:

Do not apply when food processing facility is in operation or foods are exposed.

Do not apply this spray to surfaces or utensils that may come in contact with food; excessive residues in food may result.

Revised 04/2012
To Kill the Accessible Stages of Granary Insects: Rice Weevils, Confused Flour Beetles, Rust Red Flour Beetles, Saw-Toothed Grain Beetles, Cockroaches, Carrot Weevils, and Small And Small-Flown Moths: Clean room and shut off all air conditioning or ventilation. Apply for two (2) fluid ounces per one (1) gallon of spray diluted product per 1,000 square feet (40 mL/sq ft) or less. For spray applications, use a maximum of ten (10) ounces of concentrated dilute (in one (1) gallon (750mL)) oil of only a 0.25% spray. Use the dilute spray in a mechanical aerosol fogger or generator which produces particles of aerosol size 30 (2 microns) or less. Direct spray first into all cracks, crevices, and corners, before moving to inside windows, doors, and other areas, then treat as a space spray directing the spray towards the ceiling and upper corners of the room at the rate of one (1) ounce (30 mL) per 1,000 square feet (25.3 cubic meters) of space. Do not remain in the treated area. Keep area closed for at least two hours. Do not re-enter treated area for at least two hours. Do not reapply more than once every twenty (20) days.

The Adult and Accessible Stages of Insect Pests: Of Stored Food (Stored In Multi-Wall Papered Bags In Cloth Bags); Storage Rooms and Similar Locations: Do not apply sprays for food processing facilities that are in contact with food. Use a 0.25% spray to control insects that may come in contact with food. Space contact surfaces and equipment should be thoroughly cleaned with an effective cleaning compound and rinsed with potable water before using.

The Product should be removed and destroyed, fumigated or treated with other products approved for this use.

Use as above in mechanical aerosol foggers at the rate of one (1) ounce (30 mL) per 1,000 cubic feet (25.3 cubic meters) of space. Do not remain in the treated area for at least two (2) hours. Do not re-enter treated area for at least two (2) hours. Do not reapply more than once every twenty (20) days.

RESIDENTIAL/COMMERCIAL USE INDOORS: Application inside residential and non-residential buildings including homes, apartment buildings, keeps, and food service areas of industrial, institutional, and commercial buildings such as hospitals, hotels, warehouses, and similar structures, spray treated on wood, ceramic, metal, or other surfaces by hand or by mechanical means. Use as a spray or as a dry fog. For direct application, use as a spray.

OUTDOOR USE: Do not water the treated area to the point of run-off. Do not make applications during rain. Other applications must be limited to spot or crack and crevice treatments only, except for the following permitted uses:

1. Application to soil or vegetation around structures;
2. Application to lawns, turf, and other vegetation;
3. Application to buildings foundations, up to a maximum height of 3 feet.

Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack and crevice applications only.

GENERAL OUTDOOR USE INSTRUCTIONS: Use CONQUER Residual Insecticide at the rate of (2) fluid ounces per one (1) gallon of water (15.9 mL) to control ants, cockroaches, crickets, stowaways, Spiders, and ticks.
