ExciteR™

*PROVIDES RAPID KNOCKDOWN AND KILL OF INSECTS
*MAY BE TANK-MIXED WITH RESIDUAL INSECTICIDES AND INSECT GROWTH REGULATORS
*FOR USE IN GERMAN COCKROACH RESISTANCE MANAGEMENT PROGRAMS
*AUTHORIZED BY USDA FOR USE IN FEDERALLY INSPECTED MEAT AND POULTRY PLANTS
*MAY BE APPLIED AS A WET SPRAY WHILE FOOD PLANTS ARE IN OPERATION
*NOT FOR USE ON TURF BEING GROWN FOR SALE OR OTHER COMMERCIAL USE AS SOD, OR FOR COMMERCIAL SEED PRODUCTION, OR FOR RESEARCH PURPOSES.

ACTIVE INGREDIENTS:
- Pyrethrins .................................................. 6.0%
- *Piperonyl Butoxide, Technical ..................... 60.0%

**OTHER INGREDIENTS: .................................. 34.0%
TOTAL: 100.0%

*Equivalent to min. 48.0% (butylcarbityl)(6-propylpiperonyl) ether and 12.0% related compounds.
**Contains Petroleum Distillate

KEEP OUT OF REACH OF CHILDREN
CAUTION
FIRST AID

If Swallowed: Call a doctor or get medical attention. Do not induce vomiting. Do not give anything by mouth to an unconscious person. Avoid alcohol.
If In Eyes: Flush eyes with plenty of water. Call a physician if irritation persists.
If Inhaled: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

PRECAUTIONARY STATEMENTS
Hazards To Humans & Domestic Animals
CAUTION

Harmful if swallowed or inhaled. Causes eye irritation. Avoid breathing spray mist. Avoid contact with eyes. Wear mask or respirator of a type recommended by the U.S. Bureau of Mines to give adequate protection against this material. Wear protective clothing. Wash skin thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

When using this product as a space spray in food processing plants, foods should be removed or covered during treatment. Do not apply as a space spray while food processing is underway. Food processing surfaces and equipment must be covered during treatment or cleaned with an effective detergent and rinsed with potable water before reuse. Except in Federally inspected meat and poultry plants, food processing operations may continue when this product is applied as a surface spray with care and in accordance with the directions and precautions given above.

ENVIRONMENTAL HAZARDS
Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS
Do not use or store near heat or open flame.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

A highly synergized pyrethrin insecticide concentrate for indoor or outdoor application as a surface, space, area or contact spray. ExciteR may be applied through thermal, aerosol, or ULV generators as well as thermal fogging equipment and conventional or engines and spraying equipment. ExciteR may be applied as a general surface, space, spot or crack and crevice treatment in both food and non-food areas of food handling establishments and is authorized for use in all areas of official establishments operating under the Meat Poultry, Shell Fish Grading and Egg Products Inspection Programs.

ExciteR is intended for use in and around buildings and structures as well as modes of transport. INDOOR USE AREAS: Apartment buildings, bakeries, beverage plants, bottling facilities, breweries, cafeterias, candy plants, canneries, cereal processing and manufacturing plants, dairies, and dairy product processing plants, flour mills, food processing plants, frozen food plants, grain elevators, grain mills, granaries, homes, hospitals, hotels, houses, industrial buildings, kennels, kitchens, laboratories, manufacturing facilities, mausoleums, meat processing and packaging plants, meat and vegetable canneries, motels, nursing homes, office buildings, restaurants, schools, spice plants, stores, supermarkets, warehouses, and similar structures. OUTDOOR AREAS: Drive-in restaurants, drive-in theaters, golf courses, parks, playgrounds, recreational areas, urban areas, and zoos. MODES OF TRANSPORT: Aircraft (do not use in occupied aircraft or cabin buses, trucks, trailers, rail cars and marine vessels.

Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons. Do not enter treated areas without protective clothing until sprays have dried.

The insecticidal components of ExciteR, pyrethrins and piperonyl butoxide, are classified as food additives and established tolerances will not be exceeded when used as directed. ExciteR may be diluted with water or oil and applied with conventional application equipment including, but not limited to, compressed air sprayers, power sprayers, mechanical aerosol generators (ULV generators or cold foggers) and thermal foggers (oil dilutions only). When diluting with water, prepare only the amount needed for immediate use and agitate occasionally during use. Holding a water dilution more than 24 hours is not recommended. For oil dilutions that are applied in food handling establishments, a deodorized petroleum oil which conforms with CFR 21 (especially section 172.884) is required (such as Exxon Isopar M, Ashland Low Odor Base Solvent or the equivalents).

Tank mix applications must be made in accordance with the more restrictive of label limitations and precautions. No label dosages may be exceeded. This product cannot be tank-mixed with any product with label prohibitions against such mixing.

INDOOR USE AS A CONTACT AND SURFACE SPRAY: GENERAL PEST CONTROL: To control accessible, exposed stages of crawling insects including, but not limited to, Ants, Cockroaches, Cadelles, Cigarette Beetles, Dark Mealworms, Dried Fruit Beetles, Drugstore Beetles, Confused Flour Beetles, Grain Mites, Red Flour Beetles, Rice Weevils, Sawtoothed Grain Beetles, Spider Beetles, Yellow Mealworms in sites that include, but are not limited to apartments, homes, restaurants, food processing plants, industrial installations and warehouses, dilute at the rate of up to 4.25 fluid ounces of ExciteR per gallon of water and apply at the rate of 1 gallon to 750 square feet. Thoroughly spray the surfaces where these insects are usually found including walls, baseboards, moldings, doors, cabinets, shelves, sinks and pipes with special attention to cracks and crevices, niches, dark corners, drapes and other harborage sites.

Except in Federally inspected meat and poultry plants, food processing operations may continue when ExciteR is applied as a surface, spot or crack and crevice treatment in accordance with the directions and precautions given above.

IN USDAA INSPECTED FACILITIES: To control accessible, exposed stages of crawling insects including, but not limited to, Ants, Cockroaches, Cadelles, Cigarette Beetles, Confused Flour Beetles, Dark Mealworms, Dried Fruit Beetles, Drugstore Beetles, Grain Mites, Red Flour Beetles, Rice Weevils, Sawtoothed Grain Beetles, Spider Beetles, Yellow Mealworms, dilute 2.125 fluid ounces of ExciteR per gallon of water and apply at the rate of 1 gallon to 750 square feet. Thoroughly spray the surfaces where these insects are usually found including walls, baseboards, moldings, doors, cabinets, shelves, sinks and pipes with special attention to cracks and crevices, niches, dark corners, drains and other harborage sites.

IN COMBINATION WITH RESIDUAL INSECTICIDES (by the U.S. Bureau of Mines to give adequate protection against this material. In USDA inspected facilities, tank-mix 2.125 fluid ounces of ExciteR with the appropriate amount of companion insecticide per finished gallon and apply per the Directions for Use on the companion insecticide label. In USDA inspected facilities, tank-mix 2.125 fluid ounces of ExciteR with the appropriate amount of companion insecticide per finished gallon and apply per the Directions for Use on the companion insecticide label.

Prior to tank-mixing, a small jar compatibility test should be conducted using the proper proportions of chemicals and water to ensure the physical compatibility of the mixture. When tank-mixing ExciteR with wettability powder formulations, first add the wettability powder to the diluent and agitate to thoroughly suspend it in solution and then add the desired amount of ExciteR to the diluted wettability powder. Tank-mix applications must be made in accordance with the more restrictive of label limitations and precautions. No label application rates may be exceeded. This product cannot be tank-mixed with any product with label prohibitions against such mixing.

FLEA AND TICK CONTROL IN BUILDINGS: Dilute 2.125 to 4.25 fluid ounces of ExciteR per gallon of water and apply the spray thoroughly to infested areas such as pet beds and resting quarters, nearby cracks and crevices, rugs and floor coverings (including under their edges) between and under the cushions of upholstered furniture and other areas where these pests may be present. Entire rugs and furniture should be treated at the rate of 1 gallon of dilute spray per 750 square feet of surface. In combination with conventional residual insecticides:

To provide quick knockdown of adult fleas, tank-mix 0.5 to 1.0 fluid ounce of ExciteR with the appropriate amount of companion insecticide per finished gallon and apply per the Directions for Use on the companion insecticide label.

Prior to tank-mixing, a small jar compatibility test should be conducted using the proper proportions of chemicals and water to ensure the physical compatibility of the mixture. Tank-mix applications must be made in accordance with the more restrictive of label limitations and precautions. No label application rates may be exceeded. This product cannot be mixed with any product with label prohibitions against such mixing.

In combination with Insect Growth Regulators: To provide quick knockdown of adult fleas, tank-mix 2.125 to 4.25 fluid ounces of ExciteR with the appropriate amount of companion insecticide per finished gallon and apply per the Directions for Use on the companion insecticide label.

Prior to tank-mixing, a small jar compatibility test should be conducted using the proper proportions of chemicals and water to ensure the physical compatibility of the mixture. Tank-mix applications must be made in accordance with the more restrictive of label limitations and precautions. No label application rates may be exceeded. This product cannot be mixed with any product with label prohibitions against such mixing.

Pet bedding should be removed and replaced with fresh bedding after treatment of pet areas. The pets should also be treated with an EPA registered product before they are allowed to enter the treated area.

PANTRY PEST CONTROL: To control adult and immature stages of Stored Product Insects including, but not limited to, Almond Moths, Angoumois Grain Moths, Caddis, Cigarette Beetles, Confused Flour Beetles, Drugstore Beetles, Flat Grain Beetles, Grain Weevils, Indianmeal Moths, Lesser Grain Borers, Maize Weevils, Mediterranean Flour Moths, Merchant Grain Beetles, Red Flour Beetles, Rice Weevils, Rusty Grain Beetles, Sawtoothed Grain Beetles and Squash-blossom borers, dilute 2.125 to 4.25 fluid ounces of ExciteR per gallon of water and apply to cupboards, shelves and storage areas. Remove all utensils, unprotected foodstuffs (or any with original packaging that has been opened), shelf paper and other objects before treatment. Allow treated surfaces to dry and then cover shelves with clean paper before replacing any utensils, foodstuffs or other items. Discard any foodstuff that was accidentally contaminated with the spray solution.

PREMISE PEST CONTROL: To control swarmers: To control swarming termites, dilute 2.125 to 4.25 fluid ounces of ExciteR per gallon of water and apply as a surface spray at the rate of 1 gallon per 750 square feet. Apply as a crack and crevice treatment to the locations from which the termites are emerging.

Carpet Beetles: To control carpet beetles (black, furniture and varied), dilute 4.25 fluid ounces of ExciteR per gallon of water and apply to the entire carpet at the rate of 1 gallon per 750 square feet. Make localized applications under the edge of carpets, floor coverings, and furniture as well as along baseboards, in closets and to infested areas of shelving.

BED BUGS: To control Bedbugs, dilute 2.125 fluid ounces of ExciteR per gallon of water and apply thoroughly to the top, ends, sides and bottoms of mattresses paying special attention to tufts, seams and folds. Treat bedspreads and frames, including all cracks and joints. Apply as a crack and crevice treatment to all baseboards, moldings, flooring, closets, shelves, furniture and picture frames that may provide harborage to bedbugs.

WEBBING CLOTHES MOTHS: To control Clothes Moths, remove infested articles from storage, brush them thoroughly and air-dry them in sunlight for several hours. Dilute 2.125 fluid ounces of ExciteR per gallon of water and apply as a crack and crevice treatment to empty chests, bureaus and storage sites. After airing, infested articles may be lightly treated with the spray solution (keep the nozzle at least three feet from the fabric to avoid staining).

FOR INDOOR APPLICATIONS: Remove pets (including birds) from the area being treated and cover fish aquaria before spraying.

INDOOR USE

To control crawling and flying insects in sites that include, but are not limited to, food processing plants, (INCLUDING USDA INSPECTED FACILITIES), industrial installations and warehouses, ExciteR may be diluted with water and applied as a space spray. For best results, close doors and windows before spraying and keep them closed for 30 minutes after treatment. The applicator must vacate the area after treatment and ventilate before reoccupying. Where oil residues are not undesirable, ExciteR can be diluted in deodorized base oil instead of water and applied with mechanical, thermal or ULV applicators.

The use of this product as a space spray, in food processing or food handling establishments must be confined to time periods when the plant is not in operation. Foods must be covered or removed during treatment. Food processing surfaces and equipment must be covered during treatment or cleaned with an effective detergent and rinsed with potable water before use.

CRAWLING AND FLYING INSECTS: For control of accessible, exposed stages of CRAWLING INSECTS including, but not limited to, Ants, Cockroaches, Caddis, Cigarette Beetles, Confused Flour Beetles, Drugstore Beetles, Flat Grain Beetles, Grain Weevils, Indianmeal Moths, Least Grain Borers, Maize Weevils, Mediterranean Flour Moths, Merchant Grain Beetles, Red Flour Beetles, Rice Weevils, Rusty Grain Beetles, Sawtoothed Grain Beetles and Squash-blossom Beetles, dilute 2.67 fluid ounces of ExciteR per gallon of water or oil and apply at the rate of 1 ounce per 1000 cubic feet of space. Direct the spray towards the ceiling and upper corners of the area and behind obstructions. Vacate the treated area and keep the area closed for at least 30 minutes after treatment. Ventilate the area before reoccupying. Repeat treatment as necessary.

FLYING INSECTS: For control of accessible, exposed stages of flying insects including, but not limited to, Angoumois Grain Moths, Cheese Skippers, Fruit Flies, Fungus Gnats, Gnats, House Flies, Indianmeal Moths, Mosquitoes, Mediterranean Flour Moths, Small Flying Moths, Tobacco Moths, dilute 10.67 fluid ounces of ExciteR per gallon of water or oil and apply at the rate of 1 ounce per 1000 cubic feet of space. Direct the spray towards the ceiling and upper corners of the area and behind obstructions. Vacate the treated area and keep the area closed for at least 30 minutes after treatment. Ventilate the area before reoccupying. Repeat treatment as necessary.

VOID AREA TREATMENT: Undiluted ULV treatment: To treat inaccessible voids including, but not limited to, attics, false ceilings, wall and equipment voids, calculate the volume of the void and apply ExciteR through thermal or ULV applicators. Dilute 2.125 fluid ounces of ExciteR per gallon of water or oil and apply at the rate of 1 ounce per 1000 cubic feet of space. Direct the spray towards the ceiling and upper corners of the area and behind obstructions. Vacate the treated area and keep the area closed for at least 30 minutes after treatment. Ventilate the area before reoccupying. Repeat treatment as necessary.

OUTDOOR USE

PERIMETER TREATMENTS: To control Ants, Bees, Centipedes, Cockroaches, Crickets, Firebrats, Fleas, Ground Beetles, Millipedes, Pillbugs, Silverfish, Sowbugs, Spiders, Ticks and Wasps, dilute 2.125 to 4.25 fluid ounces of ExciteR per gallon of water and apply at the rate of 1 gallon per 750 square feet to a band of soil and vegetation 6 to 10 feet wide around and adjacent to buildings. Treat the building foundation to a height of 2 to 3 feet at the rate of 1 gallon per 750 square feet.

TICK CONTROL: To control Brown Dog Ticks around residential areas, rural fields, woods, lots, roadsides, pathways and coastal vegetation areas, dilute 4.25 fluid ounces of ExciteR per gallon of water and apply with a mist blower (or other similar equipment) calibrated to deliver 3 gallons per acre. Apply during the peak of infestation and repeat as necessary to maintain control. Thorous applications should be made to the vegetation upon which the ticks rest.

FLEA CONTROL: To control fleas around residential areas, dog houses, kennels, paths and under plants, shrubs, trees or other shaded, moist areas where pets may rest, dilute 4.25 fluid ounces of ExciteR per gallon of water and apply at the rate of 1 gallon per 750 square feet.
In combination with other insecticides: To provide quick knockdown of insects when used with a residual insecticide, tank-mix 1.0 to 2.125 fluid ounces of ExciteR with the proper amount of companion insecticide and apply per the Directions for Use on the companion insecticide label.

Prior to tank-mixing, a small jar compatibility test should be conducted using the proper proportions of chemicals and water to ensure the physical compatibility of the mixture. Tank-mix applications must be made in accordance with the more restrictive of label limitations and precautions. No label application rates may be exceeded. This product cannot be mixed with any product with label prohibitions against such mixing.

USE ON TURF AND GRASS: Used alone as a contact spray: To control Ants, Armyworms, Billbugs, Chinch Bugs, Chiggers, Crickets, Cutworms, Earwigs, Fleas, Grasshoppers, Hyperodes Weevils (adults), Japanese Beetles (adults), Mole Crickets, Sod Webworms And Ticks, dilute and apply per the instructions in the following table:

<table>
<thead>
<tr>
<th>Treatment Area (Square Feet)</th>
<th>Fluid Ounces of ExciteR</th>

<tr>
<td>43560</td>
<td>12.0 to 24.0</td>
<td>110.0 to 220.0</td>
</tr>
</tbody>
</table>

\(^a\) Dilute with enough water to obtain thorough coverage.

In combination with other insecticides: To provide quick knockdown of insects when used with a residual insecticide, tank-mix ExciteR at the rate listed above with the proper amount of companion insecticide and apply per the Directions for Use on the companion insecticide label.

Prior to tank-mixing, a small jar compatibility test should be conducted using the proper proportions of chemicals and water to ensure the physical compatibility of the mixture. Tank-mix applications must be made in accordance with the more restrictive of label limitations and precautions. No label application rates may be exceeded. This product cannot be mixed with any product with label prohibitions against such mixing.

As a turf pest diagnostic aid: To detect turf insects prior to making an insecticide application or to evaluate control from previous treatments, dilute 0.5 fluid ounces of ExciteR per gallon of water and apply evenly with a sprinkling can over one square yard of turf. Record the species and number of insects present ten minutes after application. Sample 3 to 5 sites per 5000 square feet. Note: This procedure does not bring white grubs or billbug grubs to the surface. Use other methods to sample for these pests.

**PETS**

**PRE-TREATMENT DIRECTIONS**

**READ ENTIRE LABEL BEFORE EACH USE**

**USE ONLY ON DOGS TO KILL FLEAS AND TICKS:** Do not use on dogs under 12 weeks.

**SPECIAL ANIMALS**

Consult a veterinarian or call the National Pesticide Telecommunications Network at 1-800-858-7378, before using this product on debilitated, aged, pregnant nursing or medicated animals.

**ADVERSE REACTION INFORMATION**

Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your dog with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately, or call the National Pesticide Telecommunications Network at 1-800-858-7378.

**APPLICATION DIRECTIONS**

**TO CONTROL FLEAS AND TICKS ON DOGS:** Dogs may be treated with ExciteR by diluting at the rate of 1.0 to 2.125 fluid ounces per gallon of water and spraying or sponging thoroughly (to penetrate the hair and contact the skin) to all parts of the animal's body except the eyes, nose, mouth and genitalia. For best results against fleas and ticks on dogs, the animal's quarters should also be treated and bedding should be removed and replaced after the pet areas are treated.

**REAPPLICATION DIRECTIONS**

Do not reapply product for 7 days.

**STORAGE AND DISPOSAL**

**FOR CONTAINERS LARGER THAN ONE GALLON:**

Pesticide Storage And Spill Procedures:

- Store upright at room temperature.
- Avoid exposure to extreme temperatures.
- In case of spill or leakage, soak up with an absorbent material such as sand, sawdust, earth, fuller's earth, etc. Dispose of with chemical waste.

Container Disposal:

- Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and local procedures.

**CONTAINERS ONE GALLON AND SMALLER:**

**Storage:** Store in original container in a cool, dry place inaccessible to children and pets.

**Disposal:** Do not reuse container. Wrap container in several layers of newspaper and discard in trash.

Notice: Buyer assumes all responsibility for safety and use not in accordance with directions.
