

Strike 3[®] herbicide brands

VERSATILE BROADLEAF WEED CONTROL

Controls Tough Broadleaves

Strike 3[®] herbicide brands control many common annual and perennial broadleaf weeds, such as dandelion, clover, chickweed, henbit, knotweed, plantain, spurge and more. Strike 3[®] herbicide brands may be used on golf courses (fairways, aprons/approaches, tees and roughs); ornamental lawns and turf (residential, industrial and institutional); sod farms; and non-crop areas such as fencerows, roadsides, ditches, rights-of-way, industrial sites, and nursery and ornamental plantings (Strike 3[®] Ultra 2 herbicide only). For added convenience they can be mixed with certain liquid fertilizers or iron. Strike 3[®] Ultra 2 herbicide is for use by commercial turf or landscaping personnel only.

Features and Benefits

- Controls many common broadleaves
- Labeled for a variety of common turf and non-crop uses
- Mixture has three systemic herbicides for shoots-to-roots control

Packaging

- 2 x 2.5-gallon jugs
- 30-gallon containers
- 55-gallon containers (Strike 3[®] herbicide only)

Drift Control and Spray Coverage

To optimize spray coverage or deposition, and to reduce drift, include WinField Solutions[®] InterLock[®] adjuvant.
