

Bird OFF™ Gel

Bird Species	Pigeons and Starlings
Where to Use	Horizontal surfaces including: ledges, I-beams, parapet walls, conduit, pipes, flat or curved surfaces (Not to be used on porous surfaces)
Material	Geraniol white pepper, mineral oil, Silca
Bird Pressure	Light to Medium

Bird-OFF™ Gel is the original and first bio repellent gel. It is used to prevent pigeons and other large birds from roosting and congregating in unwanted areas. Unlike other bird repellent gels which are made from polybutene, Bird-OFF™ Gel is an oil based bird repellent gel. It's non-toxic and doesn't harm the bird, even if the birds come in contact with Bird-OFF™ Gel they can still fly or walk. Birds will not be trapped on the treated surface.

- Easily applies with a caulking gun
- Also available in a 5 gallon pail

To install: Bird-OFF™ Gel is applied in a zig-zag pattern with no more than 2" (5 cm) gaps. Do not install on a vertical surface.

Advantages & Benefits

- Does not harm birds, humans or animals
- Can be applied to any surface
- Heat resistant, non-caustic and non-corrosive
- Will not burn the installer
- Will not freeze, melt, evaporate and will withstand wind, rain and heat
- Long lasting - lasts up to one year
- Environmentally safe, will not wash out as the result of rain
